

# PACIFIC RESISTOR COMPANY

## RoHS3 & LEAD FREE STATEMENT

July 31,2019

### RoHS3

It is hereby stated and certified that Pacific Resistor Company complies with the Restrictions on Hazardous Substances, RoHS 3 Directive (2015/863/EU) to the extent herein: Pacific Resistor Co.'s products currently meet the RoHS3 thresholds for cadmium, mercury, hexavalent chromium, polybrominated biphenyls (PBBs) and polybrominated diphenyl ethers (PBDEs), Bis(2-Ethylhexyl) phthalate (DEHP), Benzyl butyl phthalate (BBP), Dibutyl phthalate (DBP), and Diisobutyl phthalate (DIBP). Our RoHS3 compliant line of products also meet the RoHS3 threshold requirements for being Pb-Free.

However, where markets require Sn-Pb terminations, Pacific Resistor Co. will continue to offer our products with either lead-free or Sn-Pb terminations under separate part numbers. Pacific Resistor's RoHS3 compliant Lead-Free parts have an E designation in the part number indicating RoHS3 compliance.

A RoHS3 Certificate of Compliance (C of C) will ship with each order of RoHS3 compliant parts.

Questions and concerns about these changes should be addressed to your factory sales representative.
